LEVEL 1 ART

COURSE CONTRACT AND CLASSROOM POLICIES

WHAT TO EXPECT

Because of the high prices of perishable materials, students are asked to pay a material fee donation of \$20.00 for the year. This donation will provide sufficient access to supplies for the projects.

The Three C's

All of my projects are graded to the three C's of success.

1. Comprehension: showing the understanding of the goals of the projects
2. Creativity: Students are never allowed to say the words 'very', 'just' or 'enough' when they talk to me.
3. Craftsmanship: If it's not a right angle, it's a wrong angle.

This course meets UC/CSU (F) and District graduation requirements for Visual and Performing Arts credit. This is a one-year foundation course introducing students to beginning art concepts, materials, skills, and ideas. They will learn new ways to look at a variety of art forms and create original works of art while exploring a variety of materials and techniques.

In addition to skill development, they will learn to include personal experiences, research, and planning in project development and will begin to explore the art of different historical periods and cultures. They are expected to keep a portfolio and notebook of projects and assignments and will participate in aesthetic critiques. Material fees and some supplies are required.
